BRAZIL UNDER BOLSONARO

**IT IS WORST
THAN YOU
IMAGINE**

DEMOCRACY IN CHECK

Bolsonaro takes part in antidemocratic protests ASKING FOR THE CLOSURE of the Brazilian Congress and the Supreme Court. He attacks the free press, indigenous people, scientists and NGOs, among others.

Bolsonaro is inspired by Órban and the Hungarian model .

ENVIRONMENT IS AN ENEMY

Bolsonaro and some of his Ministers are CLIMATE CHANGE DENIERS.

Several times they have declared environmental protection as an "international conspiracy movement" acting against Brazilian sovereignty and national development.

CLIMATE CHANGE?

Will Bolsonaro shut down NGOs working on HUMAN RIGHTS, ENVIRONMENT and TRANSPARENCY?

What about indigenous lands and protected areas?

What about respecting elections results?
