

Climate Alliance WG Buildings

28 September 2022 | 16:00 – 17:30 | online

MAKING ENERGY PERFORMANCE VISIBLE

Various tools, methods standards and certificates exist to make energy performance visible, in new builds and retrofits. Navigating the maze of what is mandatory and optional as well as what makes the most sense locally can be difficult – especially given differing national and even regional requirements. The streamlining of energy performance certificates and the methodology behind them would be a step in the right direction, but how do such mandatory certificates stack up against more ambitious performance standards?

Moderation: Sarah Mekjian, Climate Alliance

AGENDA

16:00 – 16:07	Welcome & introduction to the WG Sarah Mekjian, Climate Alliance
16:07 – 16:15	Warm up discussion in breakout groups All participants, in breakout groups
16:15 – 16:35	Energy performance certificates as policy tools for municipalities Domen Bančič, Institute for Innovation and Development, University of Ljubljana
16:35 – 16:55	Going above and beyond in building energy efficiency and renewables Jan Steiger, Passive House Institute
16:55 – 17:05	White board brainstorming session All participants
17:05 – 17:25	White board discussion All participants
17:25 – 17:30	Closing Sarah Mekjian, Climate Alliance

Co-funded by the Horizon 2020 programme of the European Union
